How, then, did the left brained/right brained theory take root? Experts suggest the myth dates back to the 1800s, when scientists discovered that an injury to one side of the brain caused a loss of specific abilities. The concept gained ground in the 1960s based on Nobel prize winning "split brain" work by neuropsychologists Robert Sperry, and Michael Gazzaniga. The researchers conducted studies with patients who had undergone surgery to cut the corpus callosum the band of neural fibers that connect the hemispheres as a last resort treatment for epilepsy.
