I on board with the Bengals being for real, but come on, nobody would be too surprised if they fall apart. They've played very well, but Andy Dalton's play has turned on a dime before, and it could again with the Bengals' fortunes going with him. I'm on board with the Bengals being for real, but come on, nobody would be too surprised if they fall apart. Atlanta Falcons are a postseason lock? The rule itself wipes its feet on minorities in general wasting their time for a josh martin jersey sham interview and criticising the Raiders for jeremy kerley jersey who they chose to interview spits in the face of Martin and Johnson insinuating they don keyshawn johnson jersey deserve to have their names put out there. I sure no minority coach who could be considered a realistic option would be willing to waste their time being interviewed for a job they know they not gonna get which is one of the problems with the rule. So if a team doesn interview a minority they criticised but if they can only get lesser knowns to go through with an interview they still criticised? And besides isn the whole point of the rule to get exposure for lesser known minority coaches? How do you know this won lead to an NFL coaching job for Tee Martin?.
