It is funny how white Americans are not too connected with European people until they need to make comparisons with black people. Sabonis was super talented. I wish he could have come over a few years earlier. The fragments ofdinosaurDNA are augmented using PCR (polymerasechain reaction), the gaps are filled in with frog DNA, and the repairedgenome is then injected into anostrichegg and brought to term in an artificial womb. The 1993 film gave rise to various questions regarding science aspects, biosafety issues and ethical issues with which this paper was to outline. We can never deny that humans were made with a characteristic of superb intelligence and perseverance to continue learning, discovering and improving science especially the technology without considering any limit. Everything, even the most unfeasible imagination of a person, can be made into reality; not these days maybe but.
