A smile is a facial expression formed by flexing the muscles near both ends of the mouth and by flexing muscles throughout the mouth.[1] Some smiles include contraction of the muscles at the corner of the eyes (see 'Duchenne Smiling' below). Among humans, it is an expression denoting pleasure, sociability, happiness, or amusement. This is not to be confused with a similar but usually involuntary expression of anxiety known as a grimace.

Adderall has been on the NFL banned list of substances since 2006. The NFLPA issues a handbook to players each year with an updated list of banned substances, which is also available on their website. And agents stress that they tell their players to check with their trainer for everything they even think about putting in their bodies.
