Taking a look at ardarius stewart jersey who the AP voted for as their All Pro QB, I think we can safely remove Tony Romo jordan todman jersey from consideration from the MVP (also voted on by the AP). Likely cements the MVP for Rodgers (I don't think Watt will generate enough support for individual accomplishments while part of a bad defense on a non playoff team). With JJ Watt the Texans still miss the playoffs..

My personal favorites of this rookie "possible charone peake jersey RB3" tier would be Dixon and Howard, as I find the depth charts in both Baltimore and Chicago realistically scalable. Dixon has some LeSean McCoy to his game in both negative and positive regards; in that he can get stuffed at the line with some regularity, but then again, he also flashes Shady's rare ability to induce missed tackles from opponents. Although NFL rules generally require wide receivers to wear jersey numbers in the 10 19 and 80 89 range, players who later change positions are allowed to keep their previous number, as long as it is not within the 50 79 range for eligible receiver purposes. Hester was allowed to keep number 23, a number normally used for cornerbacks, since it sits outside the 50 79 range. Along with former Pittsburgh Steelers wide receiver Dwight Stone, who wore number 20 during his eight year stint in Pittsburgh, Hester was one of two wide receivers to wear a 20's jersey number since the NFL adopted the current uniform numbering system in 1973.[43].
