Microsoft assists you in supporting consumerization of IT and in retaining effective management, security, and compliance capabilities. The enterprise tools and technologies that Microsoft provides can help with key enterprise tasks such as identifying non corporate devices, delivering applications and data to those devices with the best possible user experience, and establishing and enforcing policies on devices based on the end user role within the organization. Microsoft enterprise tools and technologies can help IT staff to maintain a high level of security across all device types, whether the devices are corporate or personal assets, and establish security measures that protect their organization systems, data, and network.

His service game improved markedly as the tournament progressed; in the fourth round he racked up 36 aces, with his fastest reading 218km, while second serves regularly clocked over 200kph. Compare this to fastest serves of 199kph against Viktor Troicki and 201kph against Tsonga. His percentage of first services in did dip, but twice he won 79% of those that made it in, reinforcing just what a weapon it is..

At first, how the relative strengths of these players determine the outcome of the game. While Federer is the champion in the accuracy and placement of serves, Djokovic boasts of the best return game ever. Secondly, how do the court conditions affect the strategy of each player.
