"But you have to understand how this thing came to be. July 2, 2015, a column appeared in the Toronto Sun about Phil Kessel, and in the column I wrote three sentences three! about him and hot dogs. I think it's about a 900 word column. But, because an alpha particle inside a nucleus has a very well defined velocity, khiry robinson jersey its position is not so well defined. That means there is a small, but non zero, chance that the particle could, at some point, find itself outside the nucleus, even though it technically does not have enough energy to escape. When this happens a process metaphorically known as "quantum tunneling" because the escaping particle has to somehow dig its way through an energy barrier that it cannot leap over the alpha particle escapes and we see radioactivity.
